

You Make A Difference at NC State

I want to thank you for leading the way as a generous and loyal supporter of NC State. I'm pre-med major, but I chose the College of Textiles at NC State because it's such a great school -- it's like a small college that has all the advantages of a big university -- and chemistry is such a good basis for medicine. During my freshman year as part of the University Honors Program, I used a research grant to develop a window screen that filters out pollen and dust from the air with 94% efficiency. That's how textiles can make a difference in people's lives and health.

I wouldn't have been able to take advantage of the opportunities I've had here without the generosity of NC State alumni, parents, faculty/staff, and friends. These generous donors provide support for financial aid, academic programs, research (like mine), and even the day-to-day operations that make a big difference in the lives of all students. It's good to know that there are people who want to help me get the most out of my experiences here. So please join those loyal supporters and give generously to the NC State Annual Fund. Your support always makes a difference.

Sincerely,

 Tiffany Clays of 2005

College of Textiles, Chemistry/Textile Chemistry – Resident Advisor – University Honors Program
